OBJECTIVE

Highly motivated individual who is skilled in time management and problem solving, looking to further career in the tech industry. Bringing over 2 years experience in full stack software development, as well as an understanding of Ruby on Rails, and constantly driven to improve and exceed expectations of clients and team members.

RELEVANT EXPERIENCE

Web Development Apprentice

The Last Mile | Oakland, CA (Remote) | 2022 – 2023

- Performed code review, on student coding assignments, for syntactical accuracy and coding efficiency.
- Delivered actionable feedback to students regarding current best practices and industry standards in full stack development
- Provided technical support to students, answering complex problems and debugging solutions via help desk
- Attended weekly collaboration meetings with team members, via Slack and Google Meet, to improve systems and group performance outcomes
- Deployed Google Suite tools (Calendar, Drive, Docs, Meet) daily to record work, manage workflow, and present concepts
- Utilized Slack for team communications, project brainstorming, tech related issues and problem-solving

EDUCATION

Code the Dream | Madison, IN | Certificate 2022 – 2023
